**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 17-34, drawn to an apparatus for forming continuous sheet, classified in class s 425, subclass 373.
  - II. Claims 35-44, drawn to a method for forming continuous sheet of molten and viscous material, classified in class 426, subclass 512.
2. The inventions are distinct, each from the other because of the following reasons:  
  
Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, such as granules material.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different patentability matters, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Peter Brunovskis, on April 25, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.  
  
Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1722

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thu Khanh T. Nguyen whose telephone number is 571-272-1136. The examiner can normally be reached on Monday- Friday, 6:30-4:00.
